Skid Steer Auger
 Model SSA18

Feature:

- Auger Size: 18" 12" 10"
- Hole depth Size: 48"

SPECIFICATION:

- Overall Size: 120" x W42" x H17"
- Maximum Pressure: 3000psi
- Hydraulic Flow Range: 13-20GPM

Main Functions And Uses:

SSA18 is specifically designed for drilling operations, suitable for installing columns, bridge piers, utility poles, and trees in various soil conditions. Three distinct sizes accommodate different geological conditions, while multiple width options better meet drilling width requirements.
